The NPL listing is in limbo. We do not have a written reply from NJ. DEPs Management (Van Fossen) told us that the developer wanted to take some actions at the site. The last thing I heard from Faranca, was that they were going to sit down with the developer and hear his proposal. John Malleck is still trying to obtain a reply from DEP (even if it is a negative one) for our records.

Denise,

Would you please let me know if anything new has happened with the NPL process on Duane-Marine.

Last I heard you sent a letter to DEP on December 12, 2001 asking them to concur on listing the site on the NPL.

Thanks a lot.

Michael

Mike/John/Denise

Please keep us up on the status of this site. We have a concern about people utilizing the site both as a shelter and for various pursuits. and believe that the site contamination needs to be defined.

Joe Cosentino tells me that the tanks may have been disassembled. DO you know of this developement.?
